

OUR TOWN

A pamphlet came to this desk Wednesday. These words are noted: "A call to action, to every protestant man and woman." It is signed the "Protestant Protective League" and comes from Houston. A news story carried in another place in this issue tells somewhat more fully the story of what promises to be a repetition of the Klan days, intensified by the white heat of religion. Here is a significant phrase in the pamphlet: "Present movement by the Roman Catholics in substance amounts to a threat of CIVIL WAR." It is the same C. J. Wright, secretary as mentioned in the news item telling of Texas' newest secret order, who signs the pamphlet.

Get a copy of Collier's weekly and read the first of a series of articles by William Joseph Simmons and learn first hand how he organized an army of men and women for financial gain. The old emperor who at one time was a preacher, tells how he cashed in on the ignorance and religious prejudice of many thousands of American men and women in forming the Klan.

The "Protestant Protective League" will find many who are willing to be cashed in again, but we feel that Americans will be not so easily led away from reason this time. Read this: "A powerful national council is in process of formation which will have jurisdiction over all activities in the United States of America." Ever hear anything like that before?

"You who have had organization experience know that, in order to defend our right to survive, we must have thousands of dollars AT ONCE, in order to meet preliminaries, effect an air tight organization for keen, definite and effective political action." Sounds familiar, doesn't it? "We must and will have local lodges by the thousands and members by the millions within sixty days."

The literature goes on to state that until the various state organizations are unified under one National head the dues for the present will be \$12 a year and an initiation fee of \$1. Colonel Simmons beat that record badly. He charged \$16.50. "Four qualified persons may form a lodge. Organize in 4's or more. Don't wait for numbers. Organize first then recruit." The pamphlet quotes an article at some length from "Watchman" written on June 12, 1928. In this article it is proposed to organize a new party to be known as NATIONAL party and is neither Democrat or Republican.

Application blanks state in part: "I will forward the interests of the League to the best of my ability, and will resist all efforts now being made to establish temporal power of the Roman Catholic Hierarchy and Jewish financial dictatorship." Now we know what it is.

It is unfortunate for the country that we must again have a siege of fanaticism such as swept over the land in 1922 to 1926. Real Democrats and Real Americans will meet this new menace to liberty and freedom as they met it before. We are going back to the party of Jefferson. We are going to write some history again. We are going to show the cranks that this is a land of freedom indeed and not merely in theory. We are going to have a Catholic president. We are going to set at rest for all time the insidious whisperings of rebellion against great and honest Americans because they worship according to the dictates of conscience. We are going to prove that such a campaign of vilification is un-American. We are going to prove that Jefferson was right when he wrote the statutes of Virginia. We are going to prove that this country is a land of freedom. We are going to prove that honest and honorable American citizens who have in all ages of the republic given their blood for its defense—from Concord to Flanders—all the way, be they Catholic, Jew or Protestant, are all Americans and as such, entitled to

Secrecy Cloaks Organization of New Houston Order Claiming To Have International Backing

Steeped in mystery and shrouded in secrecy, the "Protestant Protective League," U. S. A., has come into being in Houston.

Nothing is known of the aims or workings of the organization other than meager information contained in a printed invitation, "personal, exclusive," asking holders to attend a meeting which was to have been held last Friday night in a hall at 718 McKinney avenue.

A copy of the invitation did not come to light until Saturday. Political significance seems to be attached to the organization.

"Meeting an issue," is the caption at the top of one of the pages of the invitation. Then comes a meager explanation of the organization.

Purposes Explained

"The P. P. L. is not arbitrary—not to displace nor replace any other organization. We have a message not exclusive for the P. P. L., but mutual vital to all organizations. The P. P. L. is in process of conducting similar meetings throughout the U. S. A., Canada and Mexico."

Then a bold face type comes: "Unit action and unit delivery must be had." Below that is this allegation:

"Twenty million organized enemies have already in the first skirmish

White Man Badly Beaten by Negro Cotton Chopper

Dial Conn a farmer of the San Gabriel community, while bringing some negroes into Rockdale from his farm last Friday evening, was beaten over the head with a 45-caliber revolver by Frank Johnson, one of the negro men said to be an ex-convict.

Conn had the men employed chopping cotton and a dispute arose over a difference of 70 cents that Jackson claimed was due him.

Conn started to town, bringing Jackson and two others to Rockdale in his car. The negro Jackson was on the back seat when reaching the bottom thickets he attacked Conn from the rear and then jumped out of the car, disappearing into the river bottom.

The other negro on the front seat, seeing Mr. Conn unconscious, took the steering wheel and brought him to town for aid.

Klansmen Armed With Pistols and Sabres Wait For Tom Heflein

New York, July 5—Guarded by klansmen armed with pistols, clubs and sabres 3,000 persons attended a Ku Klux Klan rally in a 40-acre field on Long Island yesterday but the honor guest, Senator J. Thomas Heflein, failed to appear.

Late in the afternoon word was received that the senator was speaking at a Klan rally in Jackson, Mich., and obviously would not be able to address the Long Island meeting. The klansmen who had spent the day in various ceremonies then disbanded.

Senator Heflein at Jackson said that he had received an invitation to attend the Jamaica rally while speaking at Albany, N. Y., but had declined because of the previous promise to the Michigan folks.

Some twenty police and an emergency wagon loaded with riot guns and tear gas bombs were stationed about the field to guard the klansmen against possible attack but their services were not needed.

The policemen were not permitted on the field by the klansmen who had rented it for the day.

Police said they could do nothing about the show of firearms and other weapons carried by the klansmen as all the armed men were either deputy sheriffs or had permits to carry pistols. The klansmen explained their show of weapons as a precautionary measure to protect Senator Heflein from attack. Several threatening letters had been received, they said, promising dire things to the Alabama senator if he appeared.

Governor Smith also had been invited to attend the meeting yesterday but declined on the ground of two other speaking engagements.

Ed Tompkins

Word was received in Cameron that E. D. Tompkins, age 75, of Santa Monica, California, died at his home at ten a. m. July 5. Henderson in large farming interests in the county some twenty years ago.

Mr. Tompkins is survived by his wife and two nieces and was buried in California. Those attending the funeral from Cameron were T. S. Henderson Jr., and wife.

New Chevrolet High Production Record For 1928 Promised

Detroit, July 14—Positive indication that the Chevrolet Motor Company in 1928 will again establish a new annual production record and go well beyond the million mark this year, was seen in an announcement here today by W. S. Knudsen, president that output for the first six months of the year totalled 751,536 cars and trucks, as compared with 607,749 for the corresponding period of 1927.

Responding to the greatest demand in its history, Chevrolet established new monthly production records every month this year. Like the five preceding months, June was the best sixth month in the history of the company with a total of 132,794 units, as compared with 112,794 for June of 1927.

With its fourteen great factories at the peak of efficiency and precision operation, Chevrolet in the last six months produced a finished car every five seconds of each working day. Daily production over the six months period averaged 5,315 units. All daily records were broken May 28 when 7,075 finished cars and trucks were built.

In addition to the 751,536 cars and trucks built since the first of the year 32,719 of the 'Bigger and Better' models that have since won nationwide acclaim were built in December, bringing the total number of the present model built up to July 1st to 784,355.

Production in the first six months of the year exceeded the total output for the year of 1926 and nearly doubled the production of each preceding year.

Due to the steadily increasing popularity of the 'Bigger and Better' car, production will continue at a high rate throughout the summer and fall, Mr. Knudsen announced. Schedules set for July, August and September call for more than 100,000 units each month, indicating that Chevrolet will reach the million mark before October first.

One of the factors that made possible this record breaking production achievement was the opening of the mammoth assembly plant in Atlanta early this spring, providing Chevrolet with facilities for the production of 350 more units daily.

Early in the fall another mammoth assembly plant will be opened in Kansas City increasing again by 350 units daily Chevrolet's production capacity. With the completion of the Kansas City project, Chevrolet will have an annual production capacity of more than 1,250,000 cars and trucks annually.

Chevrolet assembly plants throughout the country that contributed to the spectacular production achievement accomplished in the last six months include those at Flint, Mich.; Tarryton, N. Y.; St. Louis, Mo.; Buffalo, N. Y.; Janesville, Wis.; Atlanta, Ga.; Oakland, Cal.; and Norwood, O. Chevrolet also maintains manufacturing plants at Detroit, Bay City, Mich.; Toledo, O.; Saginaw, Michigan and Flint, Michigan and an export plant at Bloomfield, N. J.

YOUR MONEY'S WORTH

!

Offer exceptional values and you will attract crowds of buyers, and both you and your customers will profit. Advertising and mass production are responsible for this and we all know, that the trend of business today makes it possible for the small town merchant to buy as cheaply as the city merchant and the expense of the small town merchant is not nearly as great as that of the city merchant.

Exceptional values are based on careful and shrewd merchandising getting your money's worth when you purchase and then passing the benefit of your buying skill along to your customers. This is true all the way down the line from the manufacturer to consumer.

Advertising is the connecting link that lets the consumer know what is a bargain, what is in fashion, what and when it is advisable to buy. Advertise so that the public may know of your attractive offerings, then use as much skill in buying advertising space as you do in making other purchases and be sure to get it through the advertising pages of The Cameron Herald. We reach, in a most economical way, giving you full story of your bargains to 10,000 people each week. Use advertising space in The Herald. Give good values and success is certain.

the benedictions of the Jeffersonian state.

That is why Governor Alfred E. Smith is the greatest challenge of the age in Democratic leadership. He speaks the language of Jefferson. He has the humanity of Lincoln and his nomination has quickened the impulses of millions of Americans who are big enough to love their neighbors, to respect their fellow men and to live Christian.

Let the fanatics preach war and rebellion. Let them organize their NATIONAL party. They have been a stumbling block to Democracy for years and let us hope they get out of the party and stay out. No voter who cannot support the Democratic national ticket should participate in the state primary election on July 28. We have preached the doctrine of tolerance and of harmony. In return we have found irreconcilables who insist that the party shall be a party of the minority and not of the majority.

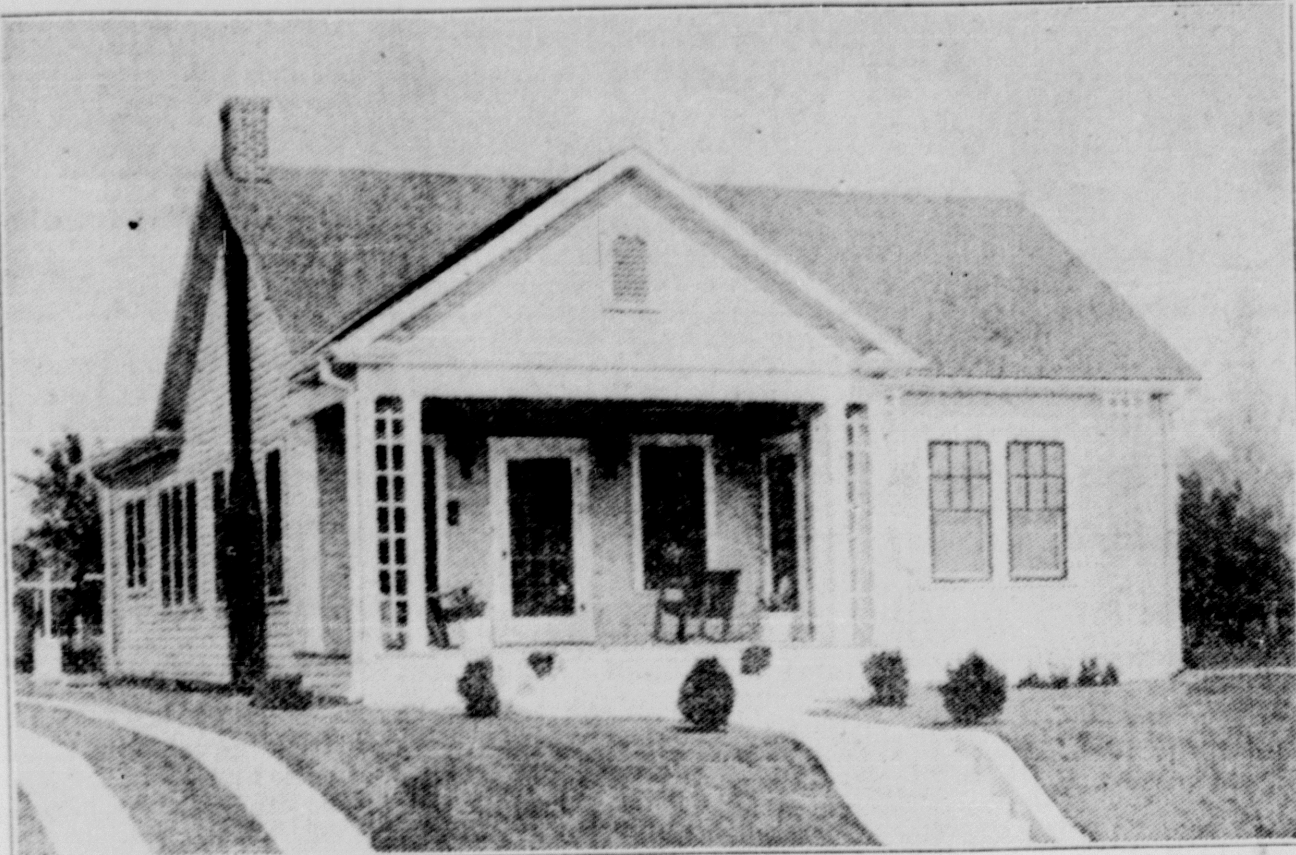

Texas entertained a large number of distinguished Americans at the national democratic convention. Among them Mayor Jimmy Walker. That reminds us of Dan Moody, the boy governor. All of us remember with deflated pride how he went up to New York as head of the Texas good will delegation and there was feted by Mayor Walker and Governor Smith. He was given an official welcome at the city hall, the first ever tendered a governor of an American state. The city of New York tendered Governor Moody a luncheon and

Mayor Walker personally looked after the boy's needs. Motor cycle officers escorted him over the city. Governor Smith broke his rule and attended and spoke at a luncheon in Moody's honor at the exclusive Whitehall Club.

At Houston Moody did not call upon Mayor Walker, so the gossip goes, and never called his hotel by telephone or to leave his card. Mrs. Smith, wife of the Democratic nominee, received no state courtesies. Moody, it is thought expected to be a big figure in the convention but like Jesse Jones' balloons that hung in the hall for the stampede, lost much of his inflation in contact with men of intelligence and experience.

"We had a woman governor, we have a boy governor, now let us have a real man governor." Thus speaks the Fort Worth Star Telegram, the paper of Amos G. Carter. As we have remarked before, Texas needs to rid itself of inexperience in high places, put at the head of this government a man of affairs and of brains. Louis J. Wardlaw should be elected governor of Texas. Let the people of Milam County go to the polls on July 28 and cast their votes for him. Milam county has always voted right. The people of this county have demonstrated their wisdom on every occasion when called upon to express public sentiment. Mr. Wardlaw will get a substantial majority of votes in Milam County.

Alvin Owsley, candidate for United States Senator, is refreshing as well as enlisting the support of a large section of the Democrats of Texas. He has never held a public office although his experience has been more profound than any man running for that place. His cour-

"If I had only done it, Originally"

"If I had only known when I bought my first roof. A little more money then and I could have had Eternit Asbestos Shingles. I wouldn't have to replace my roof now. I would have avoided inconveniences of leaks—running upstairs with a pan every time it rains."

That's an experience you never have with an Eternit Asbestos Shingle roof. Properly applied, an Eternit roof will last as long as the foundations.

It isn't too late now. Our men are applying Eternits right over old shingles. It makes a fine job, too. Gives your home a "new look," increases the value of your property. Real fire protection.

One out of every seven fires last year was communicated via the roof. You should see these shingles. Made from asbestos rock and Portland cement—they are slabs of rock. You could put one in the furnace and out it would come—unharmed. Pour gasoline over one of these shingles. Light it. Keep adding gasoline. Eternits will never burn.

There's nothing to decay. No metal to rust. That's why Eternits are everlasting.

When you re-cover your old roof with Eternit Asbestos Shingles, your roofing troubles are over. The finished job is better, too, because the old shingles make an excellent insulator.

Eternit

ASBESTOS SHINGLES

are not expensive. On the contrary, you can now purchase Eternits at a price only slightly above what you would have to pay for cheap, short-life roofings.

Phone us and we'll be glad to submit samples and prices.

Lure of the City

At least half the people in the country are hoping they may some day be able to live in a city or at least in some neighboring town. They are lured by the city lights, city shops, city parks, city companionship and the appearance of city leisure and ease. The small town resident is likely to feel that the city affords many opportunities for enjoying life that cannot be found in the small place. The city man decides that, since he is not satisfied to be a mere city man, he must move into the largest place to which he can afford to go.

The spirit of unrest that constantly works on most of us causes us to think that ours is the worst lot and that happiness is to be found in those places where there are the greatest numbers and the largest activities. Failing to find that something in ourselves and in our restricted surroundings that satisfies, we erroneously conclude that is to be found in mere bigness and we seek it where the crowds are. We forget that even in the largest cities our pleasures must come from within ourselves and that with multiplied thousands all about us our associations are still with the few friends whom we can have as well in the country as in the largest metropolis.

Greed of the City

Every city is constantly reaching out, like a huge octopus with its many deadly talons, for something new on which to feed. It must do this to sustain its growth. It must provide from outside itself something on which to feed its increasing population. It becomes grasping and greedy in proportions as it becomes large. It destroys first the neighboring villages taking from them their commerce and leaving them only the production of those things upon which to feed the city. Extending its reach it draws into its devouring clutches the nearby towns and small cities that are weaker than itself. It tempts with alluring invitations, with attractive offerings of larger stocks of goods and seductive prices, with chain stores and with flatteries through the press until it robs the smaller place of powers of resistance and of further growth and makes it its feeder. This is the history of all cities of all ages.

Meeting City Efforts

A few of the smaller communities have found ways of meeting and withstanding the encroachment of the larger places. The formula is simple. Their people stick together. They work for the interest of each other in preference to those of the city. They patronize home enterprises even though stocks may not be so large and prices quite so low. They trade at home. They are on neighborly terms with the near-by cities, but careful to see that neighborliness does not result in their own undoing. They produce crops and merchandise with which to supply the cities. They make their own communities so attractive that the local people take pride in them, and the city people seek them for rest and recreation. They show that life is as interesting in the country and the small city as it can be made in the largest city. They are alert and interested in things worth while. Such places need have no fear of being absorbed by the cities and then left to die.

Community Fairs

Secretary Jones of the Kenedy Chamber of Commerce, has started in the right way to have the right kind of a county fair. He is working hard to have a successful community fair in every part of Karnes county and then will see that inducements are offered to have the best of all these exhibits at the county fair to be held after the community fairs. Those who go to community fairs and take pride in the showing made there are pretty sure to follow them up to the county fair. The community fairs have become neighborhood social events that have their culmination for the year in the larger county fairs.

City Attractiveness

The Wellington Leader has made the discovery that Wellington would hardly take first prize in a beauty contest. Some towns become so immersed in business or grow so fat that they lose sight of the fact that beauty should increase with growth, and after awhile find that they have grown uglier as they have grown older. Editor Wells expresses regret that the streets and most of the lawns of Wellington are not as neat and presentable as they should be. Therefore he is urging individual and city co-operation in making the place more attractive. A small city can be made more attractive than a big, overgrown place if only the people are enough interested to make it that way.

Federated Clubs Building

The Women's Federated Clubs of Big Springs have completed and dedicated a new club building that would be a credit to any city in the country. The enterprise shows what women can accomplish when they unite and try. The building will be used by all the

clubs for their meetings, will be a reading room and study hall, and will be available for those who desire to use it for receptions and entertainments of any kind to which it is adapted.

City Planing Job

Speaking at Lubbock, the secretary of the Kessler Plan Association of Dallas, said, "City planning that originates at the city hall usually ends at the city hall. He meant that before city planning can be made effective a desire must exist on the part of the citizens for city beautification and improvement. No city is going to be more attractive than its people want it to be. An indifferent population results in an indifferent looking city. For this reason the press and all the other available agencies must work together constantly if our cities and especially our small places are to be made and kept attractive.

Tomato Prices

Tomatoes were recently quoted at Texas shipping points at 1 1-2 to 2 cents a pound. The same day they were being sold by Austin retailers at three pounds for 25 cents and advertised as bargains at that price. There is something wrong with our marketing system when the consumer must pay four or five times what the producer receives. There are entirely too many middle-men taking a profit. Economist, if as able as they claim to be, should devise some way to avoid this great waste.

Pearson's New School

In spending \$100,000 for a modern high school building and \$10,000 for remodeling its old school building, Pearson is making a bid for that class of citizens who place a high valuation on educational facilities when they seek a new location. And Pearson is among the growing cities of South Texas whose growth is attributed to its interest in making the living conditions of its people as inviting as possible.

Boy Governor Was Source of Irritation To Platform Makers At Houston: Moody's Part in Committee Is Revealed

Washington, July 7.—Governor Moody gave two notices of a minority report on the prohibition plank while he sat as a member of the platform committee of the Houston National convention, and he brought out none. His bickerings over the wording of the platform brought rebukes from other members, who chided him that he was desirous only of getting a chance to make a speech before the convention.

One member kidded him about the violations of the prohibition law in Texas and Governor Moody said he guessed there were violations and finally after he so frequently interrupted the proceedings chairman Pittman of the committee told him that he would be allowed 30 minutes to make a speech after the committee had drafted the platform. When the work was completed, however, all forgot about Governor Moody's proposed 30 minute speech on the prohibition question and the committee precipitately adjourned.

That is what happened, substantially, in the closed executive session of the committee on platform, as gathered from members of the committee who have been in the national capital since the convention on official and political missions.

Moody's Attitude Criticized

Republican and Democratic leaders, alike, are commenting on Governor Moody's personal attitude toward the leaders of the party from out of the State, and some of them attach national significance to it, believing that it was an internal snub.

When Governor Moody as the head of the Texas Good Will special to the East, visited New York he was accorded every courtesy by the state and municipal authorities of New York and New York City. Mayor Walker officially welcomed Governor Moody and spent the major portion of one day in marked courtesies to the Texas governor.

The city of New York tendered Governor Moody a luncheon and Mayor Walker personally looked after Governor Moody's need. Motorcycle officers escorted him over the city.

Mayor Walker gave him an official municipal reception at the city hall—the first ever tendered a Governor of an American State. Governor Smith broke his rule and attended and spoke at a luncheon in Governor Moody's honor at the exclusive Whitehall Club.

Courtesy Not Returned

The gossip goes that Governor Moody did not call upon Mayor Walker while in Houston and never called his hotel by telephone or to leave his card. Mrs. Smith, wife of the Democratic nominee, received no state courtesies, according to the gossip. Gossipers however, take into account Governor Moody's youth, coupled with the fact that he was expecting to be an important figure in the proceedings of the convention.

While the executive sessions was going on, mutual friends of Governor Moody and Jesse Jones were awaiting outside the committee room to escort Governor Moody to the convention hall. Governor Moody excused himself from offering the name of Jones in nomination because he thought he should remain in the executive session of the committee on resolutions.

Clash in Tydings Plank

When Governor Moody offered his plank and it was defeated, he served notice on the committee that he proposed to carry the fight to the floor of the convention. Then, while the members were trying to get some wording which would prevent a floor fight, Senator Millard E. Tydings of Maryland is reported to have offered a plank which provided that American citizens through their representatives in the legislative bodies have the "inherent and constitutional" right and authority to "amend the Constitution, make, repeal and amend the laws that are to govern them."

Governor Moody is said to have jumped to his feet and declared, "Well I would oppose that plank." He explained later that he thought it would be understood as an invitation to undertake an amendment to the 18th Amendment. Moody and Tydings engaged in a heated controversy and to stop the argument Brechenridge Long suggested the two go outside and have the argument out.

Then Senator Glass offered the plank that was finally adopted and Governor Moody declined it is stated to accept that, although one member twitted him by saying that any prohibitionist ought to be willing to be for a plank sponsored and supported by Carter Glass. Governor Moody made another speech in which he wanted a different plank.

Glass Plank Adopted

As the debate proceeded according to the recollection of one visitor to Washington, Robert M. Fitzgerald of California turned to Governor Moody and said he had learned "a new expression since I came to Houston." One of the Texas citizens told him he was "for prohibition because we had better have prohibition than no liquor at all." Governor Moody replied that he guessed that the liquor laws were violated and if somebody said some of the laws were violated that "I would not take any offense at it because I know they are."

After the committee reverted to the merchant marine and various industry planks the Glass plank was adopted and Senator Tydings wanted to know what Governor Moody would do.

"I intend to bring in a minority report," he again stated, and Senator Wagner moved to reconsider the vote by which the Glass plank had been adopted. Then followed much debate. Calvin Stewart of Wisconsin said he was surprised that the "great Democratic party should be invited to Texas and when all was harmony, except the young Governor, he should throw a monkey wrench in the cogs just for the purpose of getting up and making a speech before the convention." The people of Texas "ought to be ashamed of you," he told Moody.

Claims Right to Opinion

Governor Moody said he did not want to appear inhospitable but he said he thought no rule of courtesy precludes one from expressing his opinion and he believed that when the matter was considered he would be accorded the same right to his opinion as the others.

Bennett Clark of Missouri wanted Moody to say whether or not he thought the prohibitionists would not be satisfied with a plank written by Carter Glass. J. C. O'Mahoney of Wyoming, a dry Democrat from a dry state that frequently goes Democratic he said, could not see why Governor Moody, according to the recollection of many who were on the committee, would want to tie up the proceedings with a plank which would be interpreted reading out of the party all who believed in the amendment of the Volstead law. He pointed out that both Josephus Daniels and Carter Glass former cabinet members, were satisfied with the plank and he insisted that Governor Moody that if brought out a minority report would only cause a split in the party.

Addressed by Glass

Glass then addressed himself to Governor Moody, said he hoped Moody would not create dissension on the floor of the convention but gave notice that, if he did, he would go on the floor and appeal to the party to accept without serious dissent, the plank he had written. He brought applause when he said that, as a man who had always been a dry, he was

willing to pit himself against the superior talent of the young governor.

Governor Moody asked for recognition but Senator Pittman made a lengthy statement and then Moody asked if the plank guaranteed against any attempt to amend the law. Glass quickly retorted that no plank could guarantee against any attempt to amend any law. Glass and Moody got into an argument over what Bishop Cannon had said, and then Moody proceeded to make another speech which was interrupted when a Michigan member asked what was before the house.

Senator Walsh of Massachusetts moved unanimous consent, to allow Governor Moody 30 minutes of time, later along, for making a speech, and then the committee took up Alaska and Hawaii and the monopolies planks.

Mrs. John Shipp, 2314 Maple Street, Oklahoma City, Okla., says:

"Two years ago, I was in very bad health. I was so weak and run-down, I could scarcely keep going."

"My mother thought I ought to try Cardui, and told me to get some and take it. I could eat nothing, as I had no appetite."

"I found great relief after I began taking Cardui. I was able to eat and I could sleep. Before that, I had been so nervous that the least little thing upset me. I was low-spirited and blue. I got thinner and thinner, and I was always tired."

WALKER'S CREEK CHURCH AND COMMUNITY NEWS

ODELL JAMESON, Pastor

Our community has had several visitors the past week. We are glad to have them.

Mr. and Mrs. John Delehanty and daughters, Catherine and Lois, of San Angelo are visiting his parents.

Mr. and Mrs. Dewey Hightower have returned from a few days visit in Houston. Their visit was made during the National Democratic Convention.

Sunday afternoon at Silver Beach our church administered the church ordinance of baptism to six people. Next Sunday afternoon at the same time and place we will have another baptizing.

The ladies W. M. S. met with Mrs. Dewey Hightower Monday afternoon. It would be astounding to some to

know the work these ladies are doing in and for our community and church.

Mrs. Oliver Looney and daughter, Francis of Ben Arnold, were visitors at church Sunday morning. Also Mrs. Dick Harper and son, Roy.

Our B. Y. P. U. met Monday and completely reorganized. We have been operating in the name of a Senior Union but last night an Intermediate and Senior Union were perfected. This work was done for two reasons: First, because it will help our own Union and second because we must work more for efficiency from now on. Our North Zone is now issuing an efficiency banner and since we have won the attendance we must try winning the efficiency.

Our community, the B. Y. P. U. and the S. S. spent July 4 at the River

Beach. A very large crowd attended and all reported having a good time.

Mr. and Mrs. J. H. Rogers were visitors of Mr. and Mrs. Frand Angell Sunday.

The pastor is leaving Wednesday for Tracy where he is to assist Rev. Clifford Alexander in a ten days revival. He is asking that his church at Walker's Creek visit his some while he is down there. Next Sunday morning, several cars are coming and are going to try being there for Sunday School. They are going to bring their dinner and spread their dinner with the Tracy people.

Last Friday night we had a fine box and cream supper. The writer has never seen such a crowd before at the school house. Besides the fun obtained the W. M. S. treasurer is about \$65.00 better off than they were before. The purpose of the affair was to raise the initial payment off for some new lights for the church.

George R. Angell, who is in Baylor University was a week end visitor. He will be home about the middle of August.

Notice—Because of the writer being so rushed with the Encampment work and other business this week's news items are rather short. Next time this space will carry its regular amount of news.

Jones Prairie News By MRS. R. K. FONTAINE

Miss Vance McLerran entertained the Senior B. Y. P. U. at her home Friday night. Rev. Robert Dobson and two lady friends from Waco, Miss Pauline Peller and Miss Elma Wood made the evening very enjoyable to all by teaching new games and contests. At a late hour ice cream and cake was served to all.

Mr. and Mrs. Jim Fontaine spent Sunday at the Newt Canady home.

Mrs. Dick Jones returned Sunday from Galveston and Houston where she has been visiting.

Howard McLerran of Waco is spending several weeks with relatives here.

The Young People's League of Sneed's Chapel motored to Ben Arnold Sunday evening and rendered a program.

Miss Lucille Johnson entertained the Junior B. Y. P. U. Friday night at her home. The young children enjoyed games and contests of various kinds. Ice cream and cake was served to all.

Lynn Canady has been quite ill the past week.

Mr. and Mrs. Russell Bailey and children spent Sunday afternoon at the Rodney Fontaine home.

Mrs. W. T. Johnson and family motored to Kosse Sunday. Barrett Johnson is now employed there.

Archie McLerran returned last week from Galveston and Houston where he spent his vacation.

Jess Bell was home over the week end.

Mrs. John McLerran spent Tuesday with Mrs. John Bailey.

Mrs. D. Massengale is spending the week end in Waco.

Miss Bill Fontaine spent Monday and Tuesday in Cameron.

The regular club meeting was to be held at Miss Ethel McKinney's Monday. Miss Bartholmew was present but no members were present. Remember what Rev. Dobson said Sunday about going fishing. We think that is what the most of the members were doing.

Two-Minute Sermons

By Geo. Henry
As To Modernism
I believe in social service. I believe in civic improvement; I believe in every honest effort that men are making for the uplift of humanity; but I do not believe in plucking a few blossoms from the tree of religion, making a pretty bouquet of them and calling that christianity. I do not believe in casting aside faith that satisfied the deepest needs and yearnings of the human heart and that has never failed us in the hour of adversity or grief, or death, and that gives a man his clearest vision of eternity, and in setting up in its place a mere outcropping of religion which can only meet our present need—something that has an ear for the cry of an empty stomach, but none for the cry of a hungry heart; something that can not look beyond today. I do not believe in casting aside that which makes me strong for each days task, keeps open a fountain wherein I can wash and be clean, helps me to serve God and my fellow man blithely and with gentle hand. Imagine, if you can, Jesus Christ spending the years of his earthly ministry fighting for

better social conditions. His business was with the individual and his mission was spiritual.

Baptist W. M. S.

On Fourth Monday the women of the Baptist church met for Bible study. The following women were hostesses Monday in their homes.

Circle one met with Mrs. W. E. Bell Lora Andrews was leader. Circle two met with Mrs. G. S. Mangum with seven members present. Mrs. Mangum led the Bible lesson. Circle three met with Mrs. S. M. Burns with three present. Mrs. Burns was leader. Circle four met with Mrs. J. D. Dobbins with ten present. Mrs. Martha Sheppard was leader and conducted a lesson from the old testament. This circle has adopted the mite box fund and received quite a contribution at this meeting.

The seven year old son of Tom Allen, a farmer near Buckholts was painfully injured Monday afternoon when he fell from a wagon breaking his left arm at the elbow. He was taken to Buckholts and given treatment by Dr. Young.

Mr. and Mrs. C. N. Green leave this
week for Alabama to spend six or

free.

Sam Houston came in yesterday
from a trip over the road.

The Bartlett Tribune remarks:
"Last week's issue of The Cameron
Herald closed the 21st year of its ex-
istence. The last 17 years it has
been under the editorial and business
control of its present rugged and able
editor, O. F. McAnally. He says he is
in for life. The Herald has seen the
death of some half a dozen papers
which could see a long felt want over
its head, but their death proves that
long felt want either to little or too
big for them."

E. H. Iang returned the latter part
of last week from an extended tour
of West Texas. He reports the peo-
ple of that section are in a prosper-
ous condition.

Mr. and Mrs. John T. Henderson of

**To The Voters of
Milam County:**

Cameron, Texas, July 3rd, 1928.

Two years ago in my announcement for the office of Representative
of Milam County, I stated that I sponsored no legislation of any kind for I
thought we had too many laws already—and so my friends, I have not
changed my mind.

It is a well known fact that extravagance and waste leads to economic
and moral ruin, and economy, thrift and self denial leads to develop char-
acter and ability, and I think it would be well if our school and other ad-
ministrations generally would set an example of economic, sensible and
prudent administration of public funds.

My friends, I opposed the junior college measure because true to my
knowledge and belief we are a tax burdened people and have more tax on
our land than we can pay. In a report of the treasurer of the State of
Texas a short time ago, we have a delinquency tax on land alone of \$35,-
000,000 and a total of \$125,000,000 on all delinquent taxes, enough to
run the State government for five years as per our last appropriation if it
could be collected. Now my friends why should we pass any more laws
that would add a larger tax on our land and pile up further delinquency.

When I went down to the Legislature I had the good fortune to be ap-
pointed upon the appropriation committee and by this appointment afford-
ed us the opportunity to study the extravagance in which our affairs are
administered.

So my friends, I believe it is time to call a halt and stop this great
burdensome tax evil and do it now. Let's get back to earth.

I am mindful of the fact that this Government belongs to the people
and if a good per cent of the people of Milam County want to vote upon
the junior college measure for Milam county, I would feel it my duty to
introduce a bill in the Legislature to that effect, but not upon the solicita-
tion of no one individual.

If elected I will vote against all increase in taxes.

Yours very truly,

Sam Hefley

Lecture at Bartlett

G. C. Brewer of Denison, Texas will lecture Monday night July 16th at the Tabernacle on "The Evils of Companionate Marriage."

This is an important issue before the American people at this time and its effects on the home life and marriage relations of our young people should be understood by everyone.

G. C. Brewer is a man of national reputation, a speaker of great force and ability, he having debated this subject with Judge Lindsey of Denver, Colorado, who is one of the strongest advocates of companionate marriage in the United States.

It will pay you to hear this great lecture and be prepared to help stamp out this great evil before it gets a stronghold on the lives of our young American citizens.

WHAT WE THINK

By FRANK DIXON

Well, summer vacations are here again and I have found a new use for them. I been talking to some of the boys home from school. I find that it brings them from freshmen to upper classmen.

One of our neighbors was talking the other day about this new apparatus they have invented for hearing the workings of the human brain and speaking of it as quite a new invention. One of our lady friends spoke up promptly and said, "I know a woman who has one. It never stops and when it is going good it sounds like a loose shingle in a high wind."

Politicians always look forward to the next election. Statesmen look forward to the next generation. I wonder if we will get a politician or a statesman for president next time.

In running through a new dictionary I got the other day, I found the definition of a flipper. Now it's all cleared up. Here is what it said: "A flipper is one who or that which flaps."

You can't believe these politicians. Now for instance did you notice the other day where Senator Heflin declared if Al Smith is nominated at Houston, he will get on a boat and sail for Europe. But shucks, Bill Thompson promised to resign if Crowe was beaten, too.

In talking to one of my friends who

I went up by a town rooming house the other day to call on a friend I had not seen for a long time. Going down the hall, I noticed a sign on the bathroom door which I wondered just how to interpret. Here's what the sign read: "Please clean bathtub after bathing. Landlady."

I note where the Japanese government is sending Marines to Manchuria.

Now I wonder if they have gone and started that Marine business superintending election.

I just found out why it is that sometimes I can not think clearly. I notice where Elinor Glyn says that purple is the best color for a writing room because it conducts brilliant thought—Mine's all painted in ivory.

A preacher friend of mine here was telling me about an incident that happened down at Kansas City where they were holding the big Methodist conference. This big church lady, so called, had three of these big bishops out to their house for dinner and she forgot to ask any of them to say grace. Now she is receiving condolence from her friends.

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been in use for over thirty years, has borne the signature of Dr. J. C. Fletcher, and on the wrapper all these years just to protect the coming generations. Do not be deceived. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

Never attempt to relieve your baby with a remedy that you would use for yourself.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.
